New Music & More...For Your Harmony Kit

What's New and Exciting...

Over the last year, we've been transitioning to a greater online presence with [MySpace](#), [Facebook](#), and [You Tube](#). However, we've not actively been spending time getting the information to those that might benefit the most...YOU! Our future will include enewsletters to provide updates of new music and spoken word resources that will be made available to you upon request and at NO cost, as usual.

CDs Musicians Have Produced & Donated...

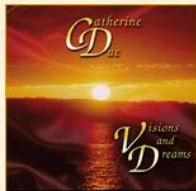

We're excited that such notable musicians are so inspired by our mission that they've donated their CDs to our Harmony Kits. Two musicians are from outside of the U.S.; one from France and the other from Australia. Visit our [website](#) to see and learn more about the growing number of musicians currently contributing their CDs to HWH.

Healing with Harmony

When you invite angels into your life, you will find that things change. It's subtle, at least in the beginning, but definitely noticeable.

I suppose it's because angels are a little touch of heaven for us, and once we have accepted their existence, we are willing to go where they send us.
